(Deemed to be University under section 3 of UGC Act, 1956)

<PROJECT TITLE>

BCSE203E - WEB PROGRAMMING

PROJECT DOCUMENT

Winter Semester 2025 - 2026

REG_NO
NAME

UNDER THE GUIDENCE OF
Dr. KAUSER AHMED P
SCOPE

1. Abstract – one page summary of project
2. Introduction 1
 - 1.1. Aim & Objective
3. System Requirements
 - (Software requirements)
4. Recent Technology Adapted
 - 4.1. Technology-1:
 - 4.1.1. Technology-1 description
 - 4.1.2. Sample code & Screenshot
5. Solution for Existing problems
 - 5.1. Solution-1
 - 5.1.1. Problem description and its Solution
 - 5.1.2. Sample code & Screenshot
 - 5.2. Solution-2
 - 5.2.1. Problem description and its Solution
 - 5.2.2. Sample code & Screenshot
6. Screenshots

Selected frontend design - excluding recent technology and existing problem solution screenshots.
7. Implementation Code
8. Conclusion

Mark Distribution

Topics Covers	Marks Weightage
Adopting Recent Technologies	
Finding Solution for existing problems (Minimum 2)	5
HTML5 / CSS/ Java Script	5
Demo, Viva & Report	10
Total	20

Minimum 30 Pages

SAMPLE TOPICS

1. Water Management Portal
2. Smart Traffic management system
3. E-Healthcare Advisor
4. Online grievance redressal system
5. E-GAS SEVA
6. Online Medicine Shopping
7. Customer Targeted E-Commerce
8. Intelligent Tourist Guide
9. Social analytics
10. Web analytics
11. Website Evaluation Using Opinion Mining
12. Topic Detection Using Keyword Clustering
13. Energy efficiency in the Internet of Things
14. IT solutions for water quality, air pollution, and sustainable agriculture
15. Smart cities.
16. Knowledge based Community Sharing System
17. TARP At Home, VIT
18. Stock Market Analysis
19. In Society
20. IoT/Sensors
